### UNION JACK OFFERS FORKS TO BE RECKONED WITH

*"American distributor of fine imported stable forks and garden tools"*

**Everywhere, USA - June 9, 2006** - Tired of replacing poor quality pitchforks every season? Frustrated with forks that pierce your beautiful rubber stall mats? Stable fork frustrations be gone - UNION JACK has the answer! With a full line of imported stable forks and garden tools, UNION JACK products offer high quality, durability and dependability from Fyna-Lite, England's biggest stable fork specialists since 1985.

As the *exclusive* US distributor of the British Fyna-Lite Stable Forks, UNION JACK offers a range of products to suit every barn's pick-up needs. With serious tools made for serious work consider two popular and purposeful solutions - the **MULTI-MUCKA** for use on ALL beddings and the **RUBBER-MATTING FORK** made specifically for stalls with mats. By targeting specific tasks these customized products make the challenges of stall clean-up a breeze.

The **MULTI-MUCKA** Manure Fork is the **ONLY** professional stable tool available *anywhere* designed for use on all stall beddings including: straw, pellets, chopped cardboard, shredded paper, wood chips, rice hulls and wood shavings. Engineered for perfection from handle to prong, each fork comes custom with a plain textured grip together with hardened and tempered spring steel prongs that mold and adjust to all surfaces. Like that ideal horse, each rake is perfectly balanced, strong yet lightweight with a lasting finish. Pointed prongs lift and move bedding with ease while removing the minimum amounts - no more back-breaking work!

**Winner** of the **Innovation Award** at BETA (British Equestrian Trade Association) the unique **RUBBER-MATTING FORK** design won't damage rubber mats. The rounded tines pick up debris and wet bedding but don't mar or catch on the rubber below. Also strong and lightweight, the RUBBER MATTING FORK comes with a quality softex grip and long wooden handle.

Award-winning, top-quality stable forks, the **MULTI-MUCKA** and the **RUBBER-MATTING FORK** are now available in the US *only* through **UNION JACK STABLE & GARDEN**. Pitchfork problems are now a thing of the past! Contact UNION JACK today:
